## SUMMARY

Career target: Front-end Developer
Work permit: UK work and residence permit

Currently looking for opportunities as a Junior Front-end Developer. I enjoy the challenges of front-end work and believe there is no limit to professional development. As a front-end developer, I have a basic skillset and I keep learning new technologies to cover the gaps I currently have.

## CORE KNOWLEDGE & SKILL AREAS

- JavaScript (ES5, ES6)
- ReactJS
- jQuery
- HTML, CSS
- Sass

- Bootstrap
- Webpack, Gulp
- NPM
- Git
- Jira

## RELATED EXPERIENCE

### Javascript101

JavaScript meetup group in Bristol, UK ( https://www.meetup.com/CodeHub-Bristol/ ).
Now we are working on the JS resources app. The project is made with React, ES6 and Webpack:

### Minsk City Dashboard

A city dweller's desk is a dashboard of Minsk, based on open datasets.
Site: http://city.opendata.by/
Sources: https://github.com/opendataby/city-dashboard

### Self-education, August 2016 - till now

- Learning front-end technologies at online resources: freeCodeCamp, Coursera, Codecademy, etc.
- Creating web-applications with JavaScript, React, HTML, CSS/Sass, jQuery.

### Wargaming.net, Belarus,  September 2013 - July 2016
### Customer Support Specialist

Responsibilities Included:

- Resolving customer issues in a clear, courteous and straightforward manner.
- Identifying and solving technical issues with a variety of diagnostic tools.
- Cases and claims creation for bugs corrections.
- Working with the audience in social networks.

Reason for leaving this position: decision to change a career direction.

**July 2016 – till now** – freeCodeCamp.com, an open source community for learning to code and practicing by building projects for nonprofits.
**2011 – 2015** – Belarusian State Economic University. Bachelor of Economics obtained.

LANGUAGES

English - Upper intermediate (CEFR Level B2)

Belarusian - Native

PROJECTS

**Portfolio Page**
Live demo: https://dandel10n.github.io/
Sources: https://github.com/dandel10n/resume

My portfolio page is made with React, ES6 and Webpack. I've listed only the most interesting projects in this CV, but you can find more on this portfolio page.

**Recipe Box**
Live demo: https://dandel10n.github.io/recipe_box/
Sources: https://github.com/dandel10n/recipe_box

Online recipe box for favourite recipes. The project is written with React using Local storage.

**Camper Leaderboard**
Live demo: https://dandel10n.github.io/camper_leaderboard/
Sources: https://github.com/dandel10n/camper_leaderboard

A list of the most active freeCodeCamp participants. This project is made with React and ES6. I've used fetch for http requests.

**Trampolines Site Project**
Live demo: https://dandel10n.github.io/trampolines_site/
Sources: https://github.com/dandel10n/trampolines_site

This is one of test tasks which I made for Front-End developer vacancy. The project is written with Sass and compiled with Gulp. It was made responsive, using mobile first. It has some dynamic UI elements with CSS animation.

**Furniture Store Site Project**
Live demo: https://dandel10n.github.io/furniture_store/
Sources: https://github.com/dandel10n/furniture_store

This site prototype was made as a studying project. It is written with Sass and compiled with Gulp. I've used nunjucks for html templates. The project is made responsive, using mobile first and progressive enhancement strategies. It was designed by Yana Smirnova and Natalia Izum.

**Tic Tac Toe Game**
Live demo: https://dandel10n.github.io/tic-tac-toe_game/
Sources: https://github.com/dandel10n/tic-tac-toe_game/

Classic Tic-Tac-Toe game for one or two players. The project is written with JQuery.
